dynatrace

Transform faster with automatic and intelligent observability

Dynatrace delivers software intelligence to simplify cloud complexity, boost application security, and accelerate digital transformation. With the deepest and widest hybrid, multicloud observability, continuous runtime application security capabilities, and powerful AIOps, the Dynatrace Software Intelligence Platform delivers precise answers about the performance and security of applications, the underlying infrastructure, and the experience of all users, so teams can automate cloud operations, release more secure software faster, and deliver unrivalled digital experiences.

50+ offices

8 labs

3,000+ employees

* Statistics current as of October 2021

A unified platform

Leave the bag of tools behind. Tame modern cloud complexity and accelerate innovation with a single platform that is purpose-built to support the broadest array of DevSecOps use cases.

Infrastructure monitoring

Application & microservices monitoring

Application security

Digital experience monitoring

Digital business analytics

Cloud automation

Everything you need to tame the modern cloud

OneAgent

Continuous, automatic discovery and observability across the full stack.

Smartscape

Automatic, real-time topology mapping with context.

PurePath

Distributed tracing with code-level analysis.

Davis AI

Precise answers with root cause for enhanced performance and security in multicloud environments.

Hyperscale

Scalable across hundreds of thousands of hosts, millions of entities, and the largest multiclouds.

A bold history

2005
Dynatrace founded in Linz, Austria

2006
Introduced PurePath, pioneering distributed tracing with code-level analysis

2012
Dynatrace earns #1 position in the Gartner Magic Quadrant for APM for the first time

2015
Reinvented the Dynatrace platform to meet the demands of cloud-native environments

2018
Expanded the Dynatrace platform with Session Replay, Digital Business Analytics and Digital Experience Monitoring Modules

2019
Went public on the NYSE under the ticker symbol DT

2020
Expanded the platform with the Dynatrace Application Security Module optimized for Kubernetes and DevSecOps

2021
Expanded the platform with the Dynatrace Cloud Automation Module, and launched Dynatrace Software Intelligence Hub

Backed by powerful partnerships and integrations with 590+ technologies in our Software Intelligence Hub

ATLASSIAN · aws · Azure · Red Hat · servicenow · VMware Tanzu

A track record of recognition and results

"Dynatrace has given us back so much time — we're now able to truly focus on innovation and doing cool things." Kroger

"Dynatrace is one of the best solutions we've ever deployed; it gives us answers to absolutely everything." U-HAUL

- Named a Leader in **2021 Gartner Magic Quadrant for APM** for 11th consecutive time, positioned highest and furthest in both Ability to Execute and Completeness of Vision.
- Rated highest in **2021 Gartner Peer Insights Customers' Choice for Application Performance Monitoring**
- Named Leader and Outperformer in **GigaOm Radar for AIOps Solutions**
- Positioned highest in the **2021 ISG Provider Lens™ Cloud-Native Observability Solutions Quadrant**
- Named a Leader, positioned highest in the **The Forrester Wave: Artificial Intelligence for IT Operations, Q4 2020**

About Dynatrace

Dynatrace provides software intelligence to simplify cloud complexity and accelerate digital transformation. With automatic and intelligent observability at scale, the Dynatrace all-in-one platform delivers precise answers about the performance and security of applications, the underlying infrastructure, and the experience of all users to enable organizations to innovate faster, collaborate more efficiently, and deliver more value with dramatically less effort. That's why many of the world's largest enterprises trust Dynatrace® to modernize and automate cloud operations, release better software faster, and deliver unrivaled digital experiences.
